

Operations Update

Water Deliveries – Lower Namoi

14 December 2018

We are finalising this season's water deliveries in accordance with the block release strategy.

Releases from Keepit Dam are expected to cease on Monday 17 December 2018. The final release date may be adjusted dependant on release capacity and downstream conditions.

Approximate flow cease dates are shown below.

Keepit Dam	17 December 2018	D/S Gunidgera	21 December 2018
Gunnedah	19 December 2018	D/S Weeta	22 December 2018
Boggabri	21 December 2018	Bullawa	24 December 2018
Narrabri	23 December 2018	Bugilbone	26 December 2018
		Goangra	30 December 2018

If any flow reaches Walgett, it is not expected to arrive until late December 2018 or early January 2019.

Expressions of interest for any potential further orders have been received, however the restrictions are still in place. If the restrictions are lifted and the water becomes available, we hope to deliver some further water orders as indicated by the expressions of interest received.

We will continue to monitor water resources and weather conditions and adjust planned delivery patterns in response to changes in conditions as required.

We thank you for your understanding and cooperation.
