

# Supplementary notice

## SUPPLEMENTARY WATER ACCESS FOR MURRUMBIDGEE

11 August 2020

*Department of Planning, Industry & Environment - Water* has issued access to supplementary water for the Murrumbidgee River and Yanco/Billabong Creek systems. Recent rainfall from coastal low event has led to elevated tributary inflows mainly from Jugiong creek. Therefore, the available volume is small and access will be limited to ensure all interested customers have the opportunity for access.

Please refer to page 2 for supplementary access details and dates.

In addition, all regulated river (general security) access licence holders may take water during this period of supplementary flows, if the uncontrolled flow (UCF) limits of their accounts permit. Licence holders are reminded that all diversions count towards the annual usage limit of 100% of entitlement (excludes trades into accounts).

Customers wishing to access supplementary water / uncontrolled flow must provide a START meter reading and place a complying water order using one of the following options:

- Accessing [WWW.WaterNSW.com.au](http://WWW.WaterNSW.com.au) and registering or logging on to your *iWAS* account.
- Faxing your order to **1300 871 447**
- Emailing your order to [south.orders@waternsw.com.au](mailto:south.orders@waternsw.com.au)
- Telephoning your order to **1300 662 077** During business hours

[Water order forms](#) are available from the Water NSW web site.

Customers are reminded that with the conclusion of supplementary access an END meter reading must be provided, and as regulated flow conditions would resume water orders must be placed in accordance with their licence conditions.

WaterNSW will continue to monitor the situation closely and further advice will be issued only if required, on or before Friday 14 August 2020.

For further information contact the Operations Officer, WaterNSW Southern Valleys on 1300 662 077 during business hours.

*(See page 2 for details of supplementary availability).*

*Page 1 of 3*

The periods for access to supplementary water are as follows:

<b>Section</b>	<b>Start from 8:00 am</b>	<b>Finish 8:00 am</b>
<b>Murrumbidgee and Tumut Rivers</b>		
Dams to Wagga Wagga	12 August 2020	14 August 2020#
Wagga Wagga to Berembled Weir	13 August 2020	15 August 2020#
Bundidgerry Creek	14 August 2020	16 August 2020#
MI Main Canal	14 August 2020	16 August 2020#
Berembled Weir to Gogeldrie Weir	15 August 2020	17 August 2020#
Coleambally Canal	15 August 2020	17 August 2020#
Sturt Canal	15 August 2020	17 August 2020#
Gogeldrie Weir to Darlington Point	TBA
