

# Application to consolidate water access licences

---

This application is to consolidate two or more water access licences (WALs) under section 71P (1) (b) of the *Water Management Act 2000*.

If you intend to make any other types of changes to your WAL, you will need to complete a different application form.

WAL holders are advised to read the guide to this form. Step-by-step instructions on each section are included in the guide, which also lists options for submitting this application and application fees. Information on fees is also available from the WaterNSW website [www.waternsw.com.au](http://www.waternsw.com.au).

This form can be completed using Adobe Acrobat Reader (Version 8 or above) or completed by hand. If completing the form in handwriting, please use a black/blue ink pen and use BLOCK letters.

## **Notes regarding 'holders'**

WALs can only be consolidated if the holders and the tenancy arrangements between those holders are the same. Where holders or tenancy differ, the holders will first need to change the tenancy arrangement with NSW Land Registry Services (LRS) (to ensure tenancy arrangements are the same) before the application to consolidate WALs can be accepted by WaterNSW.

Applicants wanting to consolidate WALs that are held by two or more holders therefore need to first check that the tenancy arrangements are the same for each of those WALs before lodging an application. This check can be done by an online search of the WALs on the Water Access Licence Register.
