

Notice

Gwydir valley block release strategy

27 November 2018

Due to drought conditions and low volumes of water deliveries this season in the Gwydir valley, WaterNSW has put in place a block release strategy in the Carole, Gil Gil and Moomin creeks to maximise delivery efficiencies. The remaining planned blocks are outlined below:

- Carole creek block one – at offtake 5 December to 12 December 2018
- Carole creek block two – approximately 10 days mid-January - to be confirmed
- Moomin creek block one – at offtake 25 December to approximately 22 January 2019

Customers wishing to take stock and domestic water in conjunction with the delivery are encouraged to place water orders via iWAS, your Water Accounting System at waternsw.com.au/ordering.

Deliveries to the Gwydir and Mehi rivers are order on demand, with deliveries expect to cease at the end of January.

We will continue to monitor water resources and weather conditions and adjust planned delivery patterns in response to changes in conditions as required.

We recognise the hardship that these measures place on customers and we thank you for your understanding and cooperation.
