Mid Lachlan Creeks

Teleconference Meeting

Present: Mahmood Khan, Matt Browning, Mary Ewing
Apologies: Tracey Schultz
Teleconference commenced: 11.45am

Discussion notes for teleconference held on 23rd January 2020 at 11.45am.

• Wallamundry is at 85 ML/d and expect it to stay at 80-85 ML/d for next week while flows are 800 ML/d at Jemalong to meet S&D and other orders.

• Nerathong at 10 ML/d and expect it to remain at 9-10 ML/d

• Do not expect to make any more changes to boards in the weirs in short term

• As operation of creeks has stabilised, the teleconferences will be stopped but if any problems occur, landholders should contact Mahmood or Daniel

• WaterNSW will also provide a weekly email update on operations to mid-Lachlan Creeks landholders

In addition, another meeting with landholders will be held 9am on Wednesday 19th February, at the Condobolin Ag Research Station commencing at 9.00am, to discuss river ops for next few months in more detail. Teleconference closed at 12.00pm

Final teleconference – 11.45am 23 January 2020
