

Project information sessions

Macquarie River Re-Regulating Storage Project

Photo: Macquarie River at Gin Gin Weir

Live digital project information sessions

WaterNSW has been engaged by the Department of Planning, Industry & Environment (DPIE) to develop a Final Business Case (FBC) for a proposed gated weir and fishway structure on the Macquarie River.

WaterNSW will be hosting a number of live digital information sessions to update the local community on the project.

Come and connect directly with the project team during a Facebook live session and discuss the project and current status, project objectives, environmental assessments being undertaken to understand the potential impacts, and the approvals process to progress. An opportunity to ask questions will also be provided.

Sessions will be held on:

- Tuesday 18 August from 6-7pm
- Wednesday 19 August from 12-1pm
- Wednesday 2 September from 6-7pm
- Thursday 3 September from 12-1pm

To join us at one of these sessions, join our Facebook community at facebook.com/groups/MRRRS/
