

Keepit Dam Safety Upgrade Phase 2

March 2017

The Keepit Dam Phase two involves work on the dam wall to comply with contemporary standards for extreme floods and earthquakes. This involves post-tensioning the concrete section of the dam wall.

Project overview

- Tender awarded for construction works to SRG Limited
- Public access to dam wall not permitted in preparation for construction works

What's coming up?

- Site establishment – starting late March 2017
- Commence construction on post tensioning – April 2017

Other news

Storage level: The water level of the dam will not be affected by the construction works

Site access: For safety reasons, public access to the main wall will not be permitted during the construction period, however viewing and turning area will be available at the approach to the main wall.

Community liaison group: We are committed to keeping key project stakeholders up-to-date via emailed project updates. Should you wish to have a meeting on site once the construction has commenced, please register contact Felicity Rooney, Community Engagement Officer 0419628387 or Felicity.Rooney@watnsw.com.au or call the WaterNSW help desk on 1300 662 077.

Project web page: Project information will be made available on the Keepit Dam page of the WaterNSW website www.watnsw.com.au/projects/dam-safety/keepit.
