

Operations update

Lower Namoi: water deliveries Expression of Interest (EOI)

10 December 2018

We are finalising this season's water delivery arrangements in accordance with the block release strategy. Customers who currently have any water remaining in their account and wish to potentially access any more water under this current release strategy are requested to lodge an EOI before 10 am on Wednesday 12 December 2018.

To lodge an EOI, please provide the details listed below and email them to kenneth.gee@waternsw.com.au or fax to (07) 4671 2531.

Name:

Phone number:

River section:

Licence: 90AL.....

Desired volume to extract:

Note: this EOI request refers to any additional water orders after 5 November 2018 and applies to the Namoi River upstream of Gunidgera Weir, and to the Pian Creek upstream of Greylands weir. The delivery of any further water will only be possible if it becomes available. The lodgement of an EOI is not a guarantee of water availability or delivery.

We will continue to monitor water resources and weather conditions and adjust planned delivery patterns in response to changes in conditions as required.

A separate operations update will be issued this week and will provide details about the final flow dates under the current block release strategy.

We thank you for your understanding and cooperation.
