Please note **your obligations** when submitting an ‘Application for an authority to take water while metering equipment is not operating properly or not operating’ and receiving an authority to pump:

- If more than the timeframe specified by you on this application is required to complete the necessary work, another application to extend an authority will be required **before** the current one expires.
- You must provide details of the last reading of the meter prior to its repair and before its reuse to your Customer Field Officer or Water NSW’s Compliance Officer as detailed in the authority so that the authority can be closed.
- You must provide details of the date of repair and/or reinstallation and confirm that the meter is operating properly no later than 5 days after the end of the authorisation period or earlier if appropriate.

These form a part of the conditions for your authority to pump. Read the ‘Authority to Use Work While Meter Not Operating’ carefully and comply with all of the conditions or you will risk having the authority revoked and penalties applied.
