

Supplementary notice

26 December 2018

End of supplementary flow access for Paterson Regulated River

The supplementary flow event in the Paterson Regulated Water Source will end at 10am Wednesday 26 December 2018.

To ensure that diverted water is debited against the appropriate water account, customers are reminded to advise the water order service or iWAS (internet water accounting) of meter readings at the start and end of supplementary events.

Customers can send meter readings by:

- Accessing waternsw.com.au and logging into your iWAS account.
- Emailing Central Orders@waternsw.com.au.

Water order forms are available from the [WaterNSW website](#).

At the completion of pumping supplementary water, the finish meter reading must be notified to WaterNSW using one of the above options. Failure to supply the finish reading will result in any water extracted during the event being debited to general security accounts.

For water enquiries contact Senior Planner/Operator, Martin Prendergast on (02) 6760 2002.

A full list of supplementary notices can be found on the [WaterNSW website](#).
