

Lake Cargelligo embankment upgrade

Work progressing on embankment B

Work on the Lake Cargelligo upgrade is progressing with work on embankment B, adjacent to Nilssons Lane, starting from **Wednesday 17 January**.

When complete, the upgrades will ensure the embankments comply with modern engineering standards and continue to function effectively to meet current and future needs of the local community and WaterNSW customers.

How will this work impact me?

Work will involve the use of machinery, light vehicles and construction activities on and next to Nilssons Lane in the area shown below. Some additional noise is expected.

To ensure the safety of workers and road users, temporary traffic control will be in place starting **Wednesday 17 January 2024 between 7am to 6pm, Monday to Sunday**. This arrangement will last approximately six weeks, weather permitting.

Traffic controllers will be located either side of the work area to allow road users safe and reliable access, minor delays may be experienced.

Work detail

Work on embankment B will start **from Wednesday 17 January 2024** and will take **approximately six weeks to complete**, weather and ground conditions permitting. Work will include:

- Stripping and preparing the new embankments with stabilised material including new drainage pipework and fittings
- Rebuilding and widening the embankments with conditioned materials
- Tree removal along embankments
- Installing large rip rap (large rocks) to the lake side of the embankment for further erosion protection
- Completing quality testing across the work area.
